
Simply together

ABOUT US

MoMi products are designed with ergonomics and the correct position of the child's body in mind. There are multiple possibilities to adjust each element and fit the products to the child's needs. Additionally, MoMi products are lightweight, easy to fold and carry, and equipped with solutions that make Mums' lives easier.

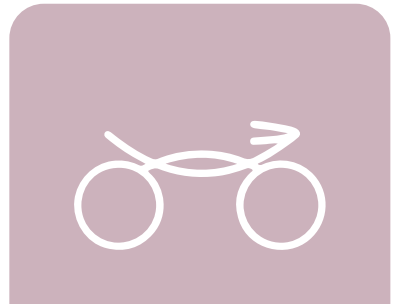

Thanks to the sturdy and solid materials, which will easily take the multiple folding and unfolding, washing, moving, and any obstacles that there are in your way. MoMi products will serve you for years.

MoMi **PAXI**

MoMi PAXI baby gate is made of the highest quality materials, which is why it is sturdy, durable and resistant to damage.

MoMi **PAXI**

baby gate

- The basic gate can be adjusted from 75 to 82 cm
- The kit contains two extensions: 7 cm and 14 cm long
- The MoMi PAXI gate is easy to install and does not require drilling in the walls or using any tools
- It can be opened both ways
- The MoMi PAXI gate has a double lock, preventing the child from opening it.
- The MoMi PAXI gate closes automatically when pushed delicately
- The gate does not close when opened to 90 degrees
- Its finish ensures it is safe for the child, it does not have sharp components.
- Conforms to the European safety standard: EN 1930
- It has passed the tests and inspections carried out by the independent SGS testing laboratory

MoMi **LEXI**

The construction of the MoMi LEXI bed rail guard is free of sharp elements so that it is completely safe for a baby.

MoMi LEXI i LEXI XL

guard rail

- Simple installation – the guard can be screwed to the bed structure or placed under the mattress and secured with dedicated straps coming with the kit.
- The MoMi LEXI guard has a system protecting from spontaneous folding.
- It comes with installation straps, reinforcing the structure and ensuring stability when the child pushes against the guard.
- The guard has a large, two-chamber pocket, where you can store the most useful items, e.g. nappies or the favourite teddy bear.
- It comes with a breathable mesh, which ensures suitable air circulation.
- The opening angle can be adjusted within 180°range, to make it easier for you to leave the bed with no need to remove the guard. You can easily open the gate yourself.
- Rounded, safe structure, no sharp edges.
- The textile is machine washable.
- The product is designed for children from 18 months to 5 years.
- The mattress thickness required to install the guard in LEXI is 15 to 25 cm and in LEXI XL is 3 to 25 cm
- Absolutely safe for the child – it successfully completed multi-stage verification and obtained the certificate of the SGS testing laboratory.
- The product meets the requirements of BS 7972 as well.
